

OPEN LETTER to FMJD

Draughts is not only a board with few pieces of wood. Draughts are not only the federations and clubs which are in. Especially, “draughts” means players, competitors.

Top Polish players are pleased to say a word about coming General Assembly. We would like to support our friend and a great man Jacek Pawlicki as a candidate for Executive Vice President.

It is commonly known that Jacek did a lot for us, for draughts. His willing and effort to make this sport more recognized and available to wider society have been seen many times. Jacek is a person, who loves draughts, always gives a helping hand and tries to bring progress on draughts arena. Taking into account his passion, ability to sacrifice, honesty, workaholism, personal experience and time he spends on draughts – Jacek Pawlicki is obviously a great candidate for this function.
