

Dear Sirs,

THE COMMITTEE OF INTERNATIONAL PROBLEMISM (CPI FMJD) makes the Calendar of the international competitions (100, 64) for draughts composition organizing under the auspices of the CPI FMJD in 2013-2014.

The world cups under the auspices of the CPI FMJD will be included in this Calendar of the international competitions. But also other international competitions for draughts composition will be included in the Calendar plan in the case when their organizers want to hold them under the auspices of the CPI FMJD (with classification of their results and giving international master points, IMP). According the Statutes of the CPI FMJD the organizers of such competitions for draughts composition could be the national federations, regional or local organisations, and private persons if they correspond to the International Rules.

The CPI FMJD asks the draughts organizations and private persons to send the following information/application to the email of Algimantas Kaciuska (the CPI Secretary): kaciuska@splus.lt till **01 of December, 2012**:

1. What international competitions for draughts composition are you going to hold in 2013-2014?
2. At what the board (100-square or 64-square board) and the section (genre) of the draughts composition are you going to hold the competitions?
3. What is the prospective date of the competition announcement (Year, month)?
4. The contact person for the competition, contact details.

Also we are waiting the applications for the international competitions for decision of the draughts composition in internal form of carrying out.

After receiving all applications till the announcement of the Calendar if it is necessary the CPI FMJD will contact with organizers which makes the applications for specification/coordination of dates or sections (genre).

The organizers which will not make the applications in time and theirs competitions will not be included in the Calendar could have some problems with confirmation by the CPI FMJD.

Algimantas Kaciuska
The CPI Secretary
